

## issues

Journalcontrol shows error

```
$ journalctl | grep bluetooth
bluetoothd[462]: a2dp-source profile connect failed for 18:F0:E4:FE:F5:58:
Protocol not available
```

this is maybe caused by a bluez5-bug

```
$ nano /etc/systemd/system/dbus-org.bluez.service
append: ExecStart=/usr/lib/bluetooth/bluetoothd --compat (or -C)
$systemctl daemon-reload
$systemctl restart bluetooth
```

thanks to user "yenseaman" from bananapi-forum
